Guarantee

Guaranteed blastocyst stage embryo (5th day of development during culture) provided that the sperm quality is not classified as OAT or worse and no MESA/TESE procedure has been performed. If a fresh cycle with donated eggs does not result in embryos suitable for freezing, we guarantee the preparation of a new embryo with the eggs of a new suitable donor and the partner's frozen sperm for a cryo-embryo transfer. In order to ensure the treatment's maximum success, a doctor or embryologist must approve entry into the guarantee programme / treatment cycle.

25% discount on the 3rd cycle. Clients who do not conceive with us (confirmed heartbeat) after two cycles with donated eggs (after the transfer of all embryos created in each cycle) will receive a 25% discount on the 3rd cycle (valid for 12 months after the last embryo transfer).

Czech health insurance coverage

IVF is covered by health insurance companies no more than three times in a lifetime, or four times if no more than 1 human embryo resulting from in vitro fertilisation was transferred to the woman's womb. It is covered until the age of forty.

Public health insurance COVERS THE FOLLOWING in an IVF cycle: IVF cycle = consultation, development of a stimulation protocol, hormonal stimulation, ultrasounds, sperm processing, anaesthesia, IVF fertilisation, embryo transfer, STD testing, partial payment for medications.

Public health insurance DOES NOT COVER the following in an IVF cycle: all laboratory methods, drug copays, cryo-embryo transfer, sperm and oocyte cryopreservation.

Additional information

Additional methods and services, as well as the discounted method package, are paid for on the day of the egg retrieval. The price of the programme does not allow for additional discounts. Please contact us to request a brochure with additional details about all the treatment programmes we offer at our clinic.

THANK YOU programme

We know that the financial aspect is often one of the most important considerations in fertility treatment. Our clinic will always give you all the information you need to make a qualified decision. In addition to an individualised approach and support to help you overcome your fears and increase your chances of a successful pregnancy, Europe IVF offers cost-effective treatment programme packages.

We have also created the THANK YOU programme, with which we would like to thank our clients for choosing our clinic by providing benefits adapted to their needs. If you have any questions about our targeted treatment programmes or the Thank You programme, you can call us right away.

You dream. We care.
